

Isaac Isaac

Product Designer · Front-End Developer · Digital Marketer

(407) 437-3838 | isaacbisaac0@gmail.com | friendscallmeib.com | linkedin.com/in/isaacx2

PROFILE

Product Designer and Front-End Developer with a 4.0 GPA and B.A. in Digital Media (Web Design) from the University of Central Florida. Experienced in end-to-end product design, user research, wireframing, prototyping, and front-end development. Passionate about creating intuitive digital experiences that balance user needs with business goals.

EDUCATION

University of Central Florida Aug 2022 – May 2026

B.A. Digital Media – Web Design Track · GPA: 4.0 · Dean's List & President's List

- Relevant Coursework: User-Centered Design, Front-End Web Design, Client-Side Scripting, Server-Side Scripting, AI Development, Social Platforms, Computer Fundamentals for Business
- Activities: Knight Hacks, Knight's Design Interactive, Design & Code Club, Downtown Orlando UX Meetup

EXPERIENCE

Fourddo — Product Design Intern May 2026 – Present

Orlando, FL

- Led end-to-end UX design and development of the Four Stories Fellows Hub, creating a centralized learning platform supporting a 10-week fellowship program for creatives ages 16-25.
- Collaborated with curriculum, branding, and leadership stakeholders to transform a three-phase educational program into a scalable digital experience with structured weekly learning modules.
- Designed site navigation, content architecture, and member access systems ahead of a Summer 2026 Boston pilot, with planned expansion to 8 filmmakers across multiple U.S. cities in 2027

SELECTED PROJECTS

Goblin Gizmos — Social Platform for Collectors *Product Design · Web Development*

- Directed brand strategy and visual identity development, creating the naming system, color palette, typography standards, and mascot design for a five-person product team.

PrizeKicks — The People's Sneaker Marketplace *Product Design · Web Development*

- Designed a sneaker marketplace platform focused on pricing transparency, enabling users to compare real-time resale trends and market values before purchasing.
- Translated research findings into a complete hi-fi Figma prototype and a functional React demo, reframing the sneaker buying experience around buyer confidence and pricing transparency

Knourish — UCF Campus Mobile Food Ordering App | *Product Design*

- Designing a mobile food ordering experience for UCF dining, centered on an Estimated Wait Time feature that reduces friction and improves transparency for students during high-traffic hours
- Developed a full Figma design system including UCF-branded color tokens, component library, and Phosphor icon integration to ensure consistency across a complete hi-fi prototype
